Six Steps to Installing Washer and Seal

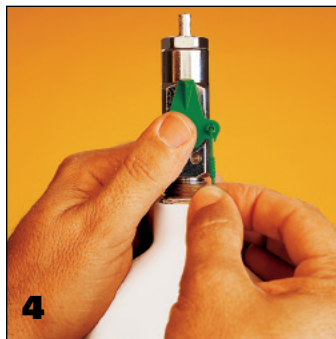

Insert washer into valve making sure that tab is at top.

Separate cap from washer and position cap so that thumb lever is at top.

Wrap strap around valve inserting hold end through locking cone.

Using finger grip pull strap through locking cone until firmly locked.

Bend strap down and back into clip at bottom of locking cone. (optional)

Tank is ready to ship. To remove cap hold valve in hand and push with thumb on either side of thumb lever to break strap.
